Election/Restrictions

1. Applicant's election with traverse of Group I (dental method) and Specie B (Ring or Cap) in the reply filed on 8-10-06 is acknowledged. The traversal is on the ground(s) that a single search could be performed to consider all aspects of the invention. This is not found persuasive because the product as claimed could be used in a materially different process as described in the Restriction Requirement mailed 7-14-06.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 2-4,6-12,21-25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention or species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 8-10-06.

3. Claims 1, 18-20, and 26 are allowable. The restriction requirement among differing species, as set forth in the Office action mailed on 7-14-06, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 21-25, directed to press stud or perforating portions are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 2-4 and 6-12, directed to a product remain withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

4. This application is in condition for allowance except for the presence of claims 2-4 and 6-12 directed to an invention non-elected with traverse in the reply filed on 8-10-06. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

EXAMINER'S AMENDMENT
